

TEKNOLOGI

K51 Machine Dishwashing Liquid

K51 Machine Dishwashing Liquid is a concentrated heavy-duty alkaline liquid detergent which is suitable for use in a wide range of dish and ware-washing as well as glass-washing machines using M-Teknologi Auto dispensing equipment. The concentrated, high-alkaline formula strips away heavy grease, protein and starch food soils that ordinary detergents can miss and is effective in light, medium and heavy soil conditions. It also contains special water conditioning agents to help reduce spotting and streaking.

FEATURES

- Cuts through grease and dried-on food.
- High alkaline formula strips heavy grease, protein and starch effortlessly.
- Highly concentrated.
- Reduced spotting and streaking.
- Excellent application in cleaning glasses with no smudges.
- Prevents scaling of the dish washing machine in medium to hard water conditions.

ACTIVE INGREDIENT

Isopropyl Alcohol, Potassium Hydroxide, Aqua, Perfume, Tri Potassium Polyphosphate, Sodium Xylene sulfonate, Sodium Meta silicate, EDTA sodium salt
