K81 Oven Cleaner

MATERIAL SAFETY DATA SHEET

Date of issue: 19/06/2021 Version: 1.1

Section 1: Chemical & Product Identification

1.1 Product Identifier

Product name	K81 Oven Cleaner.
Application	K80 Oven Cleaner is a powerful and highly effective solution specifically developed to work on high usage industrial oven and cooking surfaces. The powerful alkaline based formula lifts baked-on carbon, oil and grease from the oven and cooking surfaces with mild lemon fragrance.

1.2 Details of Supplier and Manufacturer:

Supplier details:	Synergystica Trading LLC
Manufacturer details:	Unichem Industries FZE No. 110 A, Phase 1, Fujairah Free zone, Fujairah, UAE P.O.BOX 7423 Tel. +97192282653 Fax. +97192282654 Email. info@unichem-ind.com www.unichem-ind.com

1.3 Emergency number:

+971 9 2282653

Section 2: Composition, information & ingredients

Characterization	A cleaning agent for oven and grills.

Main Ingredients	Aqua, alkylbenzene sulfonate, Coco amido propyls betaine, Methoxy propanol, sodium hydroxide, Potassium Hydroxide, sodium tripolyphosphates, preservatives, colorant and perfume.

Section 3: Hazards Identification

Please see section 11 and 12.

Section 4: First Aid Measure

Skin contact	Flush area with large amounts of water. Get medical attention if irritation persists.
Eye contact	Flush Eyes with large amounts of water for 15 Mins. Get medical attention if irritation persists.
Ingestion	If accidentally swallowed, give large quantity of water. Seek immediate medical advice (Do not vomit).
Inhalation	None

Section 5: Fire Fighting Measure

Flash Point (Method)	Not Determined
Extinguishing	Water spray, all-purpose dry chemical. CO2
Special Firefighting Procedures	No special safety equipment required as the product itself creates foam with water.

Section 6: Accidental Release Measure

Cover with Inert absorbent material and remove to disposal container. Spill area may be slippery.
Flesh with Plenty of water.

Section 7: Handling & Storage

Handling	Avoid contact with eyes and skin.
Storage	Store in tightly closed container at a temperature below 40 Degree Celsius.
Protective clothing	The use of safety goggles and protective gloves is recommended.

Section 8: Exposure controls / Personal Protection

Personal protection	None
Respiratory protection	Not required
Hand protection	Gloves are recommended.
Eye protection	Goggles are required during refilling

Section 9: Physical and Chemical Properties

Appearance	Colourless or white.
Odour	Lemon
PH-value	10.0 +0.5
Melting point/melting range	Not determined.
Boiling point/boiling range	100°C
Specific Gravity	1.03 +/- 0.01
Explosive properties	None expected.
Density (28°C)	Not determined.
Solubility in/miscibility with water	Fully soluble in water.
Viscosity (28°C)	Not determined.

Section 10: Stability and Reactivity

General	This product is stable. hazardous Polymerisation will not occur.
Incompatible Material	Not known
Hazardous decomposition product:	Not known

Section 11: Toxicological information

Skin contact:	Causes skin irritation on prolonged contact.

Eye contact:	Causes eye irritation on direct contact.
Ingestion:	Seek immediate medical advice (Do not vomit).
Inhalation	None

Section 12: Ecological information

None

Section 13: Disposal Consideration

Any disposal Practice must be in compliance with local, state and federal laws and regulations (contact local or state environmental agency for specific rules) Do not dump into sewers, any body of water onto the ground.

Section 14: Transport information

None

Section 15: Regulatory information

None

Section 16: Other information

The information presented herein is true and accurate to the best of our knowledge, but without guarantee unless explicitly given. Since the conditions of use are beyond our control, we disclaim any liability including for patent infringement incurred in connection with the use of these products, data or suggestions.
